

Jon Pohlmann

Kenny Moyer

I've been bowling for almost 30 years, back on April 1, 2011 reached an agreement with Terry Baldwin to purchase his Pro Shop located inside Oasis Lanes. Previous to buying the shop I worked in the shop starting in Oct 2010 where I was trained by Terry and also worked with Kenny Moyer, who continues to be my Senior Shop Tech and someone I rely heavily on when I need information.

I got into this line of work to help educate bowlers on the art/science of bowling balls and drilling and how it can greatly affect ball reaction. You can't just drill three holes in a ball and expect it to work. Bowler input is a priority, trying to find out what they want as far as reaction and giving that to them takes a little figuring out. It's a great personal feeling when a bowler gets a new ball and is happy with the reaction and their average begins to go up.

The smiles and reactions I get from bowlers is why I got into this side of bowling. I have several honor scores of my own, including 3- 300 games, 3-800+ series. Over the past 30 years I've taken in a lot of information and thought it was time I shared it so that it would benefit others. I work with bowlers when I can and when they request it to help them improve or work on their game, I try not to just fit a person and drill their ball and send them on their way.

It's very nice having the shop inside a bowling center, so that I can immediately watch a customer trying out their new bowling ball and do any adjustments necessary to get a proper fit and feel for the bowler.
